# Internet Initiative Japan Inc. Corporate Overview

# **Nomura Investment Forum Asia**

June 2014 TSE1:3774 NASDAQ:IIJI

**Ongoing Innovation** 

# **Key Investment Highlights**

Pioneer and Top IP Engineering Company in Japan
 Shifted from ISP to Total Network Solution Provider

Target Blue-chip & Governmental Organizations
 Approx. 8,500 Excellent Japanese Customers

 Growth Strategy with Recurring Revenues & Income Growth
 Best Positioned in the Growing Outsourcing & Cloud Computing Market

details to follow

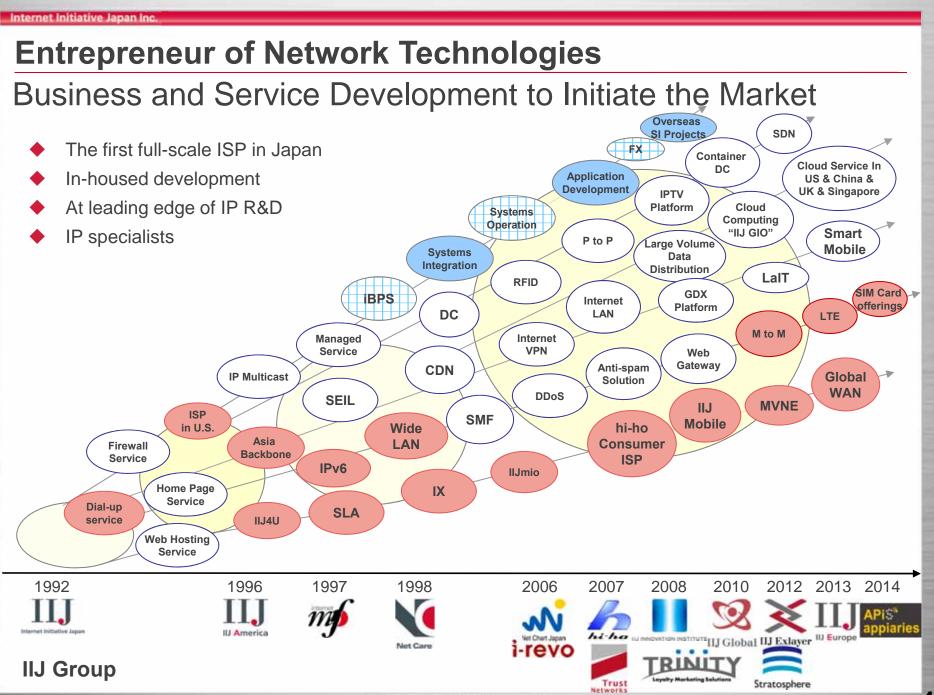

# **TOP IP Engineering Company in Japan**

- The first established full-scale ISP in Japan
   Introduced many prototype internet-related network services and led the market
   A group of highly motivated and skilled top level IP engineers
   Pioneer of network technologies in Japan
- Service initiative with in-house development
   Operate one of the largest Internet backbone networks in Japan
   Self-develop services and back office facilities
- Established "IIJ" brand among the Japanese IT market
   Known for its engineering & network operation skills
   High customer satisfaction & long term relationship
   Approx. 8,500 clients: mainly large enterprises & governmental organizations
- At the leading edge of IP R&D
   Engaged in software development of SDN
   Founding member of JEAG
   Co-work with Ministry of Internal Affairs and Communications
  - Participation in world-wide research

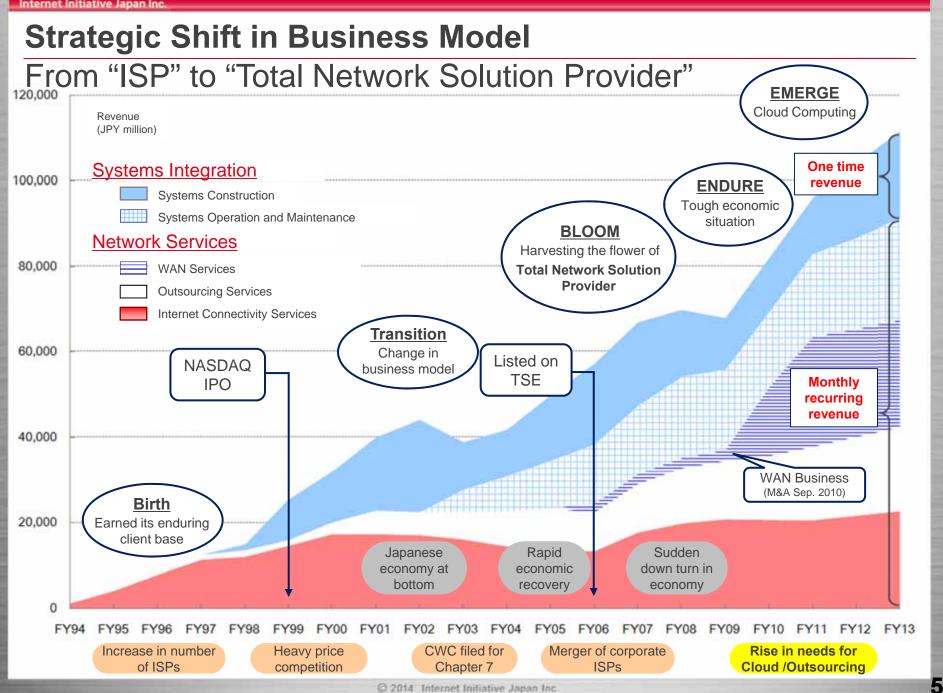

and organizations

**Company Profile** Established December 1992 Number of Consolidated: 2,353 **Employees** (approx. 70% engineers) (as of Mar. 2014) Listed Markets NASDAQ (IIJI), TSE1 (3774) Large NTT (21.6%), Koichi Suzuki (5.8%\*), Shareholders NTTCom(4.4%) (as of Mar. 2014) \*Jointly owned by Mr. Suzuki's wholly owned private company

...and many more

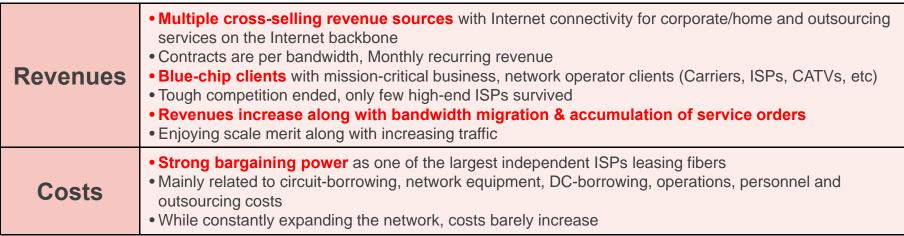

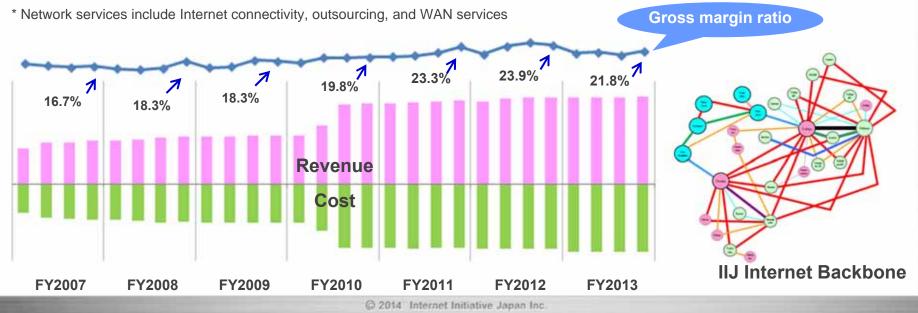

Internet Initiative Japan Inc.

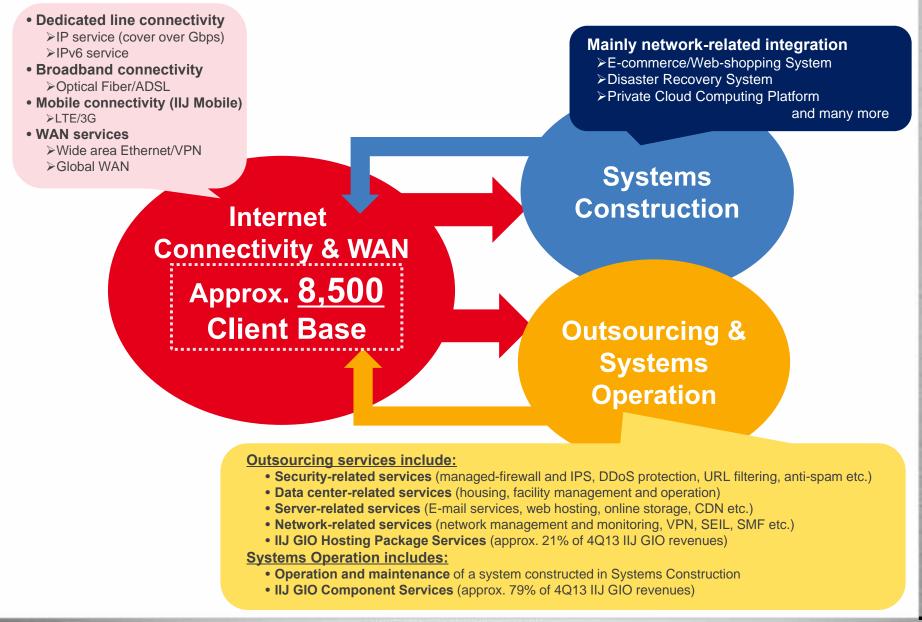

### **Business Structure of Network Services**

- > Revenues and Costs are not in linear relation
  - Costs do not increase along with revenue growth
  - If revenues are accumulated continuously, the gross margin should continuously improve

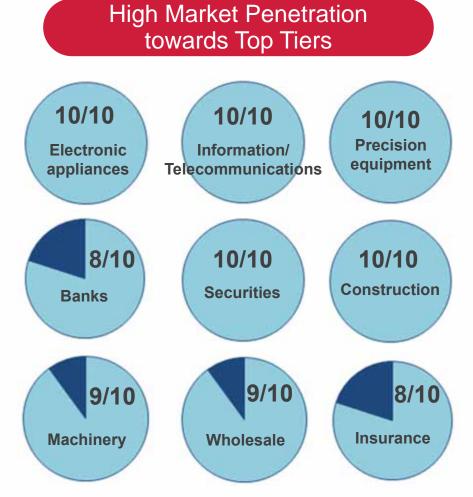

### **Business Model: Cross-selling of Network Solutions**

### **Excellent Blue-chip Client Base**

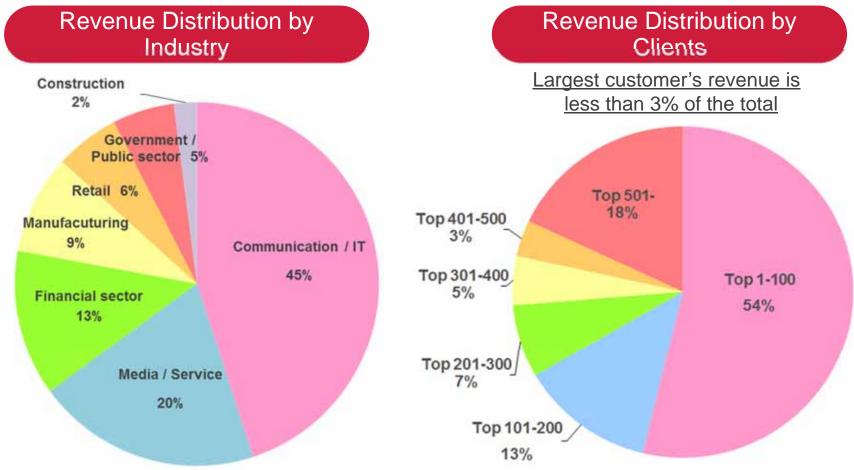

The number of clients among the top 10 companies in each industry.

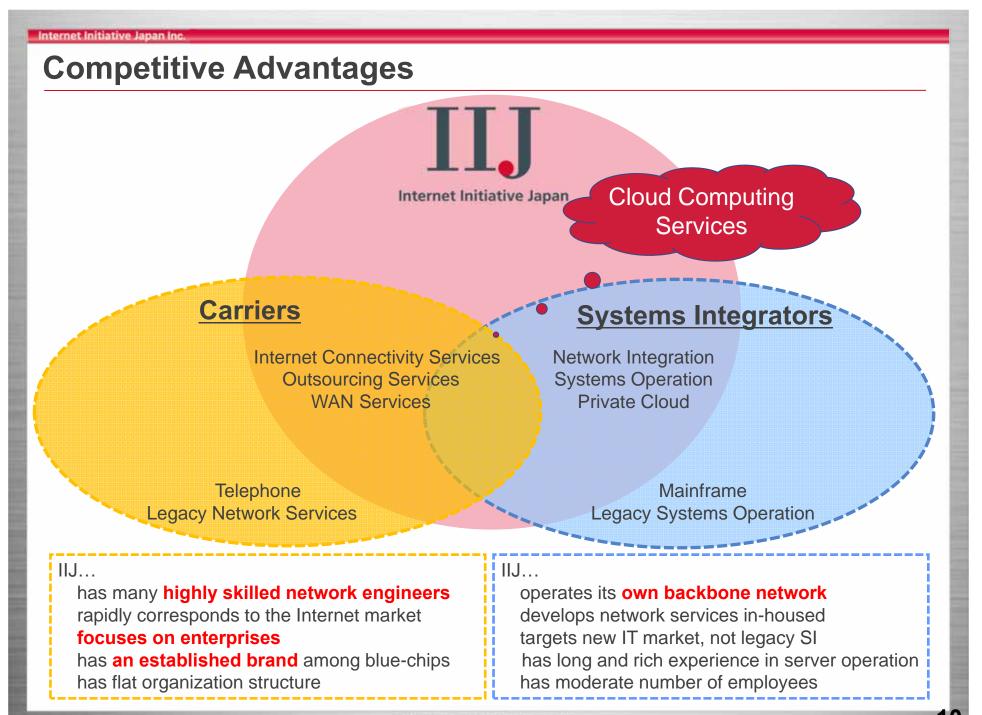

8

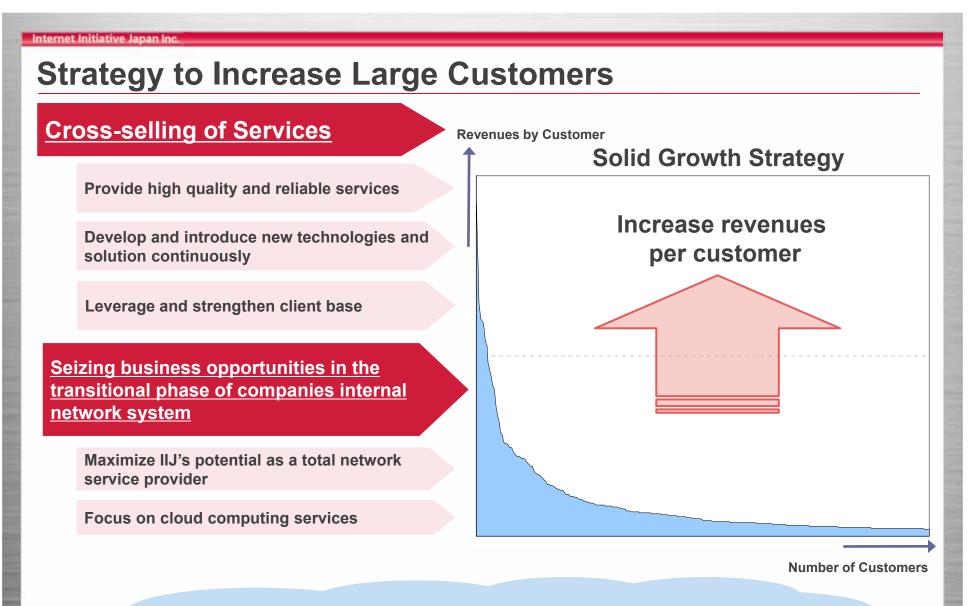

### **Revenue Composition by Clients**

Source: IIJ's FY2013 financial results

- Certain customers' revenue growing faster than the others along with their increasing needs for more network usage
- While the growth in recent years was primarily led by those large accounts, their slowing down impacted in FY13
- > Our growth strategy is to increase large customers by growing general customers' network usage

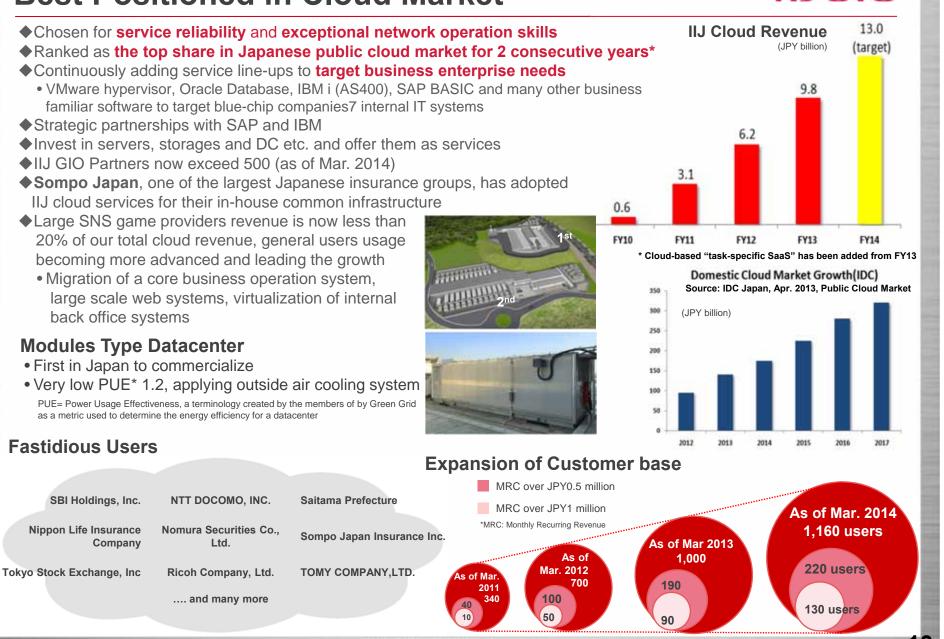

- Increased demands of outsourcing and cloud computing
- Indispensable IT investment in the mid-to-long-term

# **Growth Strategy Hereafter**

Connectivity Services	<ul> <li>Survived tough competition. Few high-end corporate ISPs remain</li> <li>Rapid traffic increase  Bandwidth migration  Further revenue growth</li> <li>Enjoying greater network efficiency by having multiple revenue sources on the Internet backbone</li> <li>Providing services to blue-chip customers who require reliable connectivity</li> <li>Home connectivity: consumer LTE SIM card offerings (Feb. 2012) leading the growth</li> </ul>
Cloud Computing Services	<ul> <li>Launched in Dec. 2009, gathered approx. 1,160 corporate users (as of Mar. 2014)</li> <li>Network outsourcing opportunities arise, shift from legacy system integrators</li> <li>Leading cloud service market, top share in Japanese public cloud market for 2 consecutive years</li> <li>Revenue: FY11 JPY3.1 billion &gt; FY12 JPY6.2 billion &gt; FY13 JPY9.8 billion, FY14 target JPY13.0 billion</li> <li>By leveraging our competitive advantages such as blue-chip customer base and large cloud infrastructure, the business should grow significantly for middle to long term</li> </ul>
Outsourcing Services	<ul> <li>Constantly developing new services to deal with evolving Internet threats such as DDoS attacks</li> <li>Continuous needs for security and datacenter related services etc.</li> </ul>
Systems Integration	<ul> <li>The return in the appetite of Japanese corporate IT investments</li> <li>The number of orders and project volume increasing</li> <li>Acquiring several flagship large-scale projects incorporating SI, Cloud and MVNO</li> <li>Construction Revenue: FY11 JPY12.0 billion ⇒ FY12 JPY15.8 billion ⇒ FY13 JPY18.7 billion</li> </ul>
Overseas Business	<ul> <li>Headed overseas to support Japanese corporate customers</li> <li>Providing cloud services: the U.S. (Apr. 2012), China (Jan. 2013), the UK (Apr. 2013), Singapore (Mar. 2014)</li> <li>Forefront investment along with cloud services in multiple locations and enhancement of employees Operating Loss: FY12 JPY0.2 billion, FY13 JPY0.6 billion</li> <li>Revenue: FY12 JPY3.6 billion, FY13 JPY4.1billion</li> <li>Middle to long term goal: aim for JPY10.0 billion in revenue</li> </ul>
ATM Operation	<ul> <li>Business model like "Seven Bank" with high profitability</li> <li>Strong revenue and income driver in mid-term</li> <li>Monopolistic position in pachinko parlors</li> </ul>
R&D	Key theme: <b>Software Defined Network (SDN)</b> , has been developing SDN platform software since Sep. 2012, Products have been used by major network operators in Japan for evaluation purpose
	© 2014 Internet Initiative Japan Inc.

### **Best Positioned in Cloud Market**

### II) G I O

### **MVNO Business**

### **For Enterprises**

### Providing enterprise solution, B2C service platform

- First MVNO in Japan to use NTT Docomo's network
- Layer2 connection with NTT Docomo's 3G&LTE network, greater functionality to offer valued added services
- M2M related projects increasing especially from security and merchandising industries, smart metering, networked vehicles etc
- Increasing MVNE requirements integrating SI to construct B2C service platform for enterprise customers

### **For Consumers**

#### LTE SIM card offerings growing Revenue increased by JPY1.1 billion YoY

• Highly reliable connectivity, resulting in high customer satisfaction

leveraging renowned operation expertise from corporate services

# • Continuously updating service lineups by answering customer feedback

SMS & MNP compatibility, package of 3 SIM cards, speed control coupon, voice function etc.

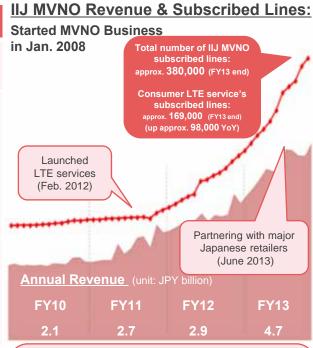

#### Greater customer reach

Partnering with major electronic retailers such as BicCamera and Aeon to increase sales channel, in addition to direct sales

### **Driving Further Growth**

### Increase MVNO infrastructure utilization by gathering traffic, Improve network services gross margin

- Accumulation of M2M related projects along with the recent trend "Internet of Things"
- Meeting MVNE demands from major manufacturing, Slers, and other existing blue-chip customers
- "Low-cost SIM · Smartphone" market rapidly growing

### Japanese MVNO market size: Ratio of MVNO contracts to

number of MNO service subscribers

≻Europe, USA, Australia 10%-14%<sup>(\*3)</sup> Japanese M2M market size:

(\*1)Ranked at top in a inexpensive SIM card user survey by MMD Research Feb. 2014 (\*2)Ministry of IAC "Publication on MVNO service usage (as of Dec. 2013)" Apr. 2014 (\*3) MRI "MVNO trend and issues" Mar. 2014

(\*4) NRI "Issues and societal system approach towards next generation M2M market "Nov. 2013

# **Developing SDN Platform – Focused R&D Theme**

SDN (Software Defined Network): future networking technology, network is virtualized and controlled by software, independent from physical boundaries

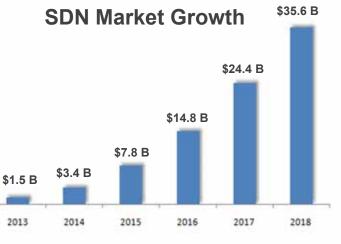

- > Aim to be the leader in SDN market
  - Develop services internally
  - Apply the technology to IIJ's large backbone network for even better efficiency in the future
- Covers broad networking reach of Cloud/WAN/Enterprise LAN on a single platform

### Stratosphere Inc.

- Stakeholder composition: 50% IIJ, 50% ACCESS
- Established: April 2012
- Business: R&D of NaaS (Network as a Service)

### Stratosphere SDN Platform 1.0

- Released: October 2012
- Controller of virtualized network platform
- Applicable to OpenFlow, Overlay Protocols, MPLS, IPsec etc
- Users: data center operators, large EC operators, cloud service operators, and service providers

Source: Infographic by SDNCentral, Plexxi, and Lightspeed Venture Partners http://www.sdncentral.com/infographic-sdn-market-to-reach-35b-by-2018/

### **OmniSphere**

- Released: August 2013
- Controller enabling automatic and flexible network configuration
- Ubiquitous networking environment
- Compatible switch made by Allied Telesis

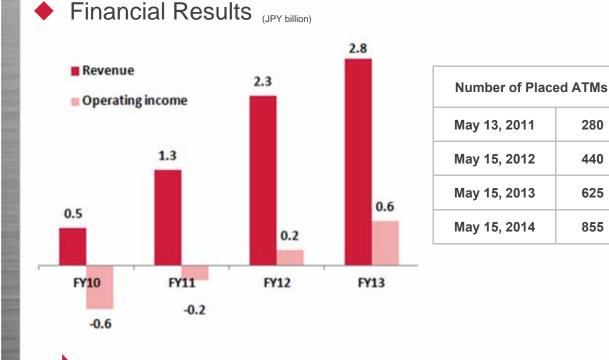

"the unique combination of a big ISP/Cloud operator (IIJ) and a routing/networking engine software provider (ACCESS) is the best match for developing the next-generation networking platform" Toshiya Asaba (CEO/President of Stratosphere Inc.)

# **ATM Operation Business Developments**

### **Business Model**

- Similar to "Seven Bank" model, high profitability • Seven Bank: 18,142 ATMs, revenue JPY106.0 billion, profit ratio 34.0% as of March 31, 2014
- Placing ATMs in Pachinko parlors in Japan with dominant position After long discussion, started to place in Kanto, Kansai, and Kyushu areas
- Receive commission for each withdrawal transaction
- Strong revenue & income driver in mid-term
  - Approx. 12,000 Pachinko parlors in Japan as of 2011 (Metropolitan Police Dept.)

< Trust Networks Inc. >

- 79.5% subsidiary
- Established in July 2007
- Pursue ATM operation business

Total number of ATMs & daily usage per ATM are the keys to profit growth

### **Summary of FY2013 Financial Results**

< FY2013 Financial Results > < FY2014 Financial Targets >

· Revenues	JPY114.3 billion	(up 7.6% YoY)	JPY123.0 billion	(up 7.6% YoY)
· Gross margin	JPY21.1 billion	(down 3.6% YoY)		
· Operating income	JPY5.7 billion	(down 26.2% YoY)	JPY7.2 billion	(up 25.8% YoY)
·Income before income tax expense	JPY6.3 billion	(down 19.1% YoY)	JPY7.0 billion	(up 11.6% YoY)
Net income attributable to IIJ	JPY4.4 billion	(down 16.2% YoY)	JPY4.5 billion	(up 1.3% YoY)

### **FY2013 Business Developments**

- Acquired several flagship large-scale projects incorporating cloud, SI & MVNO. Anticipatory mid- to long-term recurring transactions
- More advanced enterprise cloud usage
  - > Major players in financial sector and more
  - > Average revenue per general corporate customers increased by over 20% YoY
- Consumer LTE SIM card offerings rapidly growing
  - Revenue increased by JPY1.1 billion YoY, Contracts increased by 90,000 YoY
- Overseas Business: FY13 revenue: JPY4.1 billion, Operating loss: JPY0.6 billion
  - Increased employees, launched cloud services in Europe & Singapore, extended Internet backbone to London and Singapore, planning the sales of container DC
- Number of employees: increased over 10% YoY
- ◆ Service infrastructure expansion Doubling of container datacenter capacity etc.

### FY2013 Financial Results

### Revenue increased, Operating income decreased

- Operating costs and expenses increased along with proactive business expansion (up JPY10.1 billion YoY)
- Recurring revenues from certain large customers failed initial expectations by approx.JPY2.0 billion and impacted profit
- SI gross margin decreased affected by large SI projects with lower margin

### FY2014 Planned Actions

Various Developments to Strengthen Business	FY2014 26% YoY OP Income Growth
<ul> <li>Demonstrate competitive advantage toward blue-chips companies with new service development while maintaining service quality</li> <li>Acquire more personnel (same or more level as FY13)</li> <li>Further develop overseas business to increase cross-selling with Japanese customers</li> <li>Relocate headquarter and enhance group business synergies</li> <li>Continuously seek strategic M&amp;A opportunities</li> </ul>	<ul> <li>Increase network services and SI gross margin by improving network utilization and accumulating systems operation projects</li> <li>Profit contribution from cloud service (target JPY13.0 billion in revenues) and ATM operation business by placing more ATMs</li> <li>Strict cost and resource control</li> </ul>

## **Consolidated Results for FY2013 and FY2014 Target**

(Announced on May 15, 2014)

### **IIJ Group – The Way Forward**

# **Market Opportunity**

- Increased usage of network based systems
- Widespread use of cloud computing services
- Explosion of data traffic due to the growing popularity of smart devises
- Return of IT investments supported by the recent Japanese economy recovery
- Large-scale flagship projects incorporating cloud, SI and MVNO

# **Stronger Management**

- Katsu COO to reinforce customer relations both domestically and internationally
- Suzuki CEO to focus on technology R&D and new service innovation
- Proactive recruitment to acquire business resources and develop business faster

# **Stronger Capital Base**

Secured JPY17.3 billion with equity finance in 2Q FY13

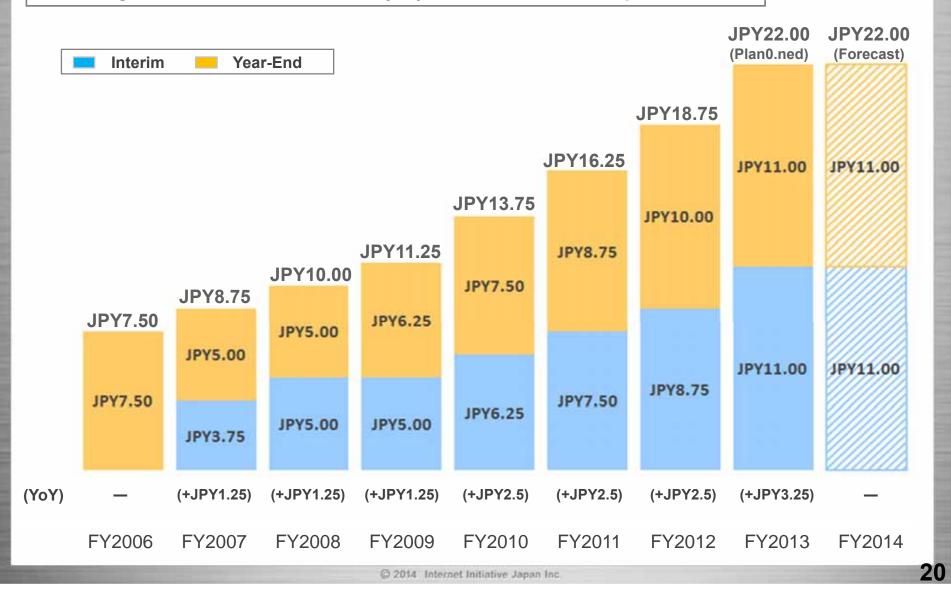

- Strengthen cloud related facilities
- Continuously seeking M&A opportunities

# Sustainable Growth & Scaling-up

To take IIJ Group to the next level of growth and achieve a wider scope of business, we are to accelerate our core business development and execute a possible M&A that shall produce high synergy with the rich resources IIJ Group has.

### **FY2014 Dividend Forecast**

IIJ conducted a 1:200 stock split on common stock with an effective date of October 1, 2012. Dividend figures shown below are retroactively adjusted to reflect the stock split.

# Consolidated Financial Results for FY2013 Announced on May 15, 2014

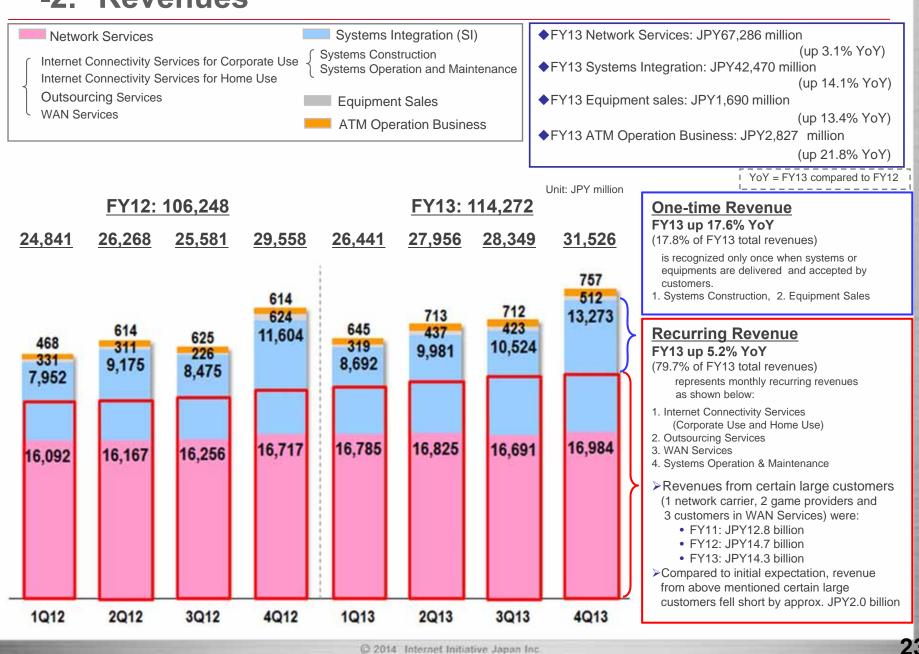

Internet Initiative Japan

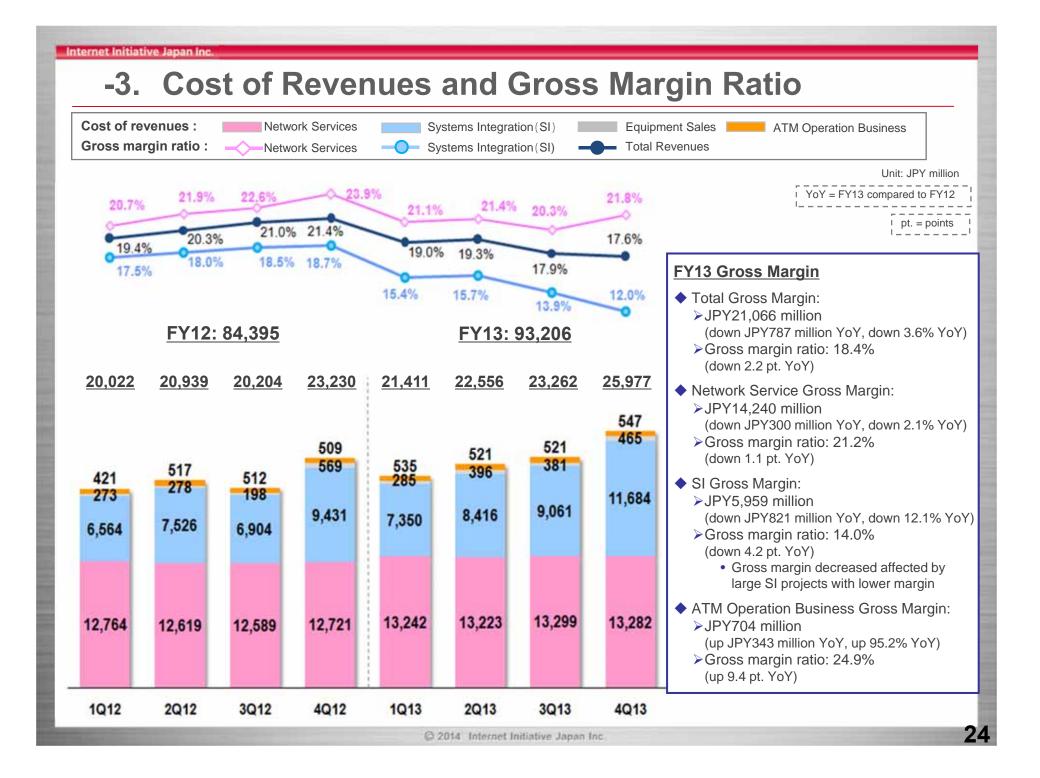

## -1. Consolidated Results for FY2013

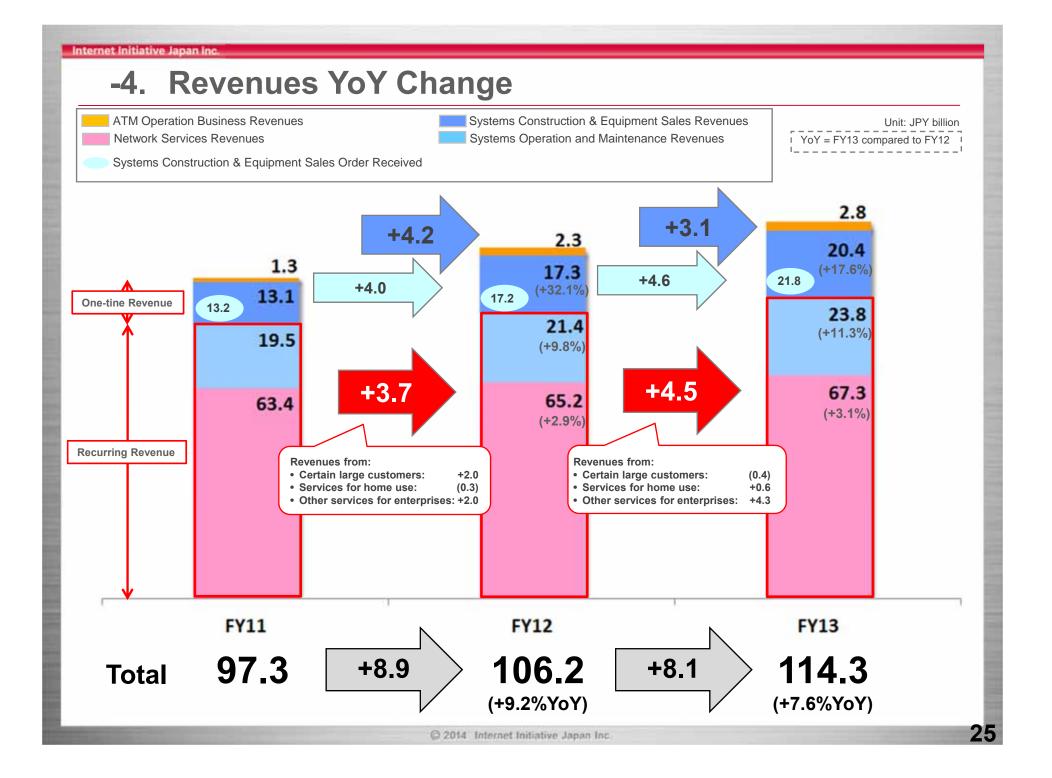

_					Unit: JPY billion
	% of Revenues FY13 (Apr. 2013 -Mar. 2014)	% of Revenues FY12 (Apr. 2012 -Mar. 2013)	YoY Change in %	% of Revenues FY14 Target (Apr. 2014 -Mar.2015)	YoY Change in %

Unit: JPY billion

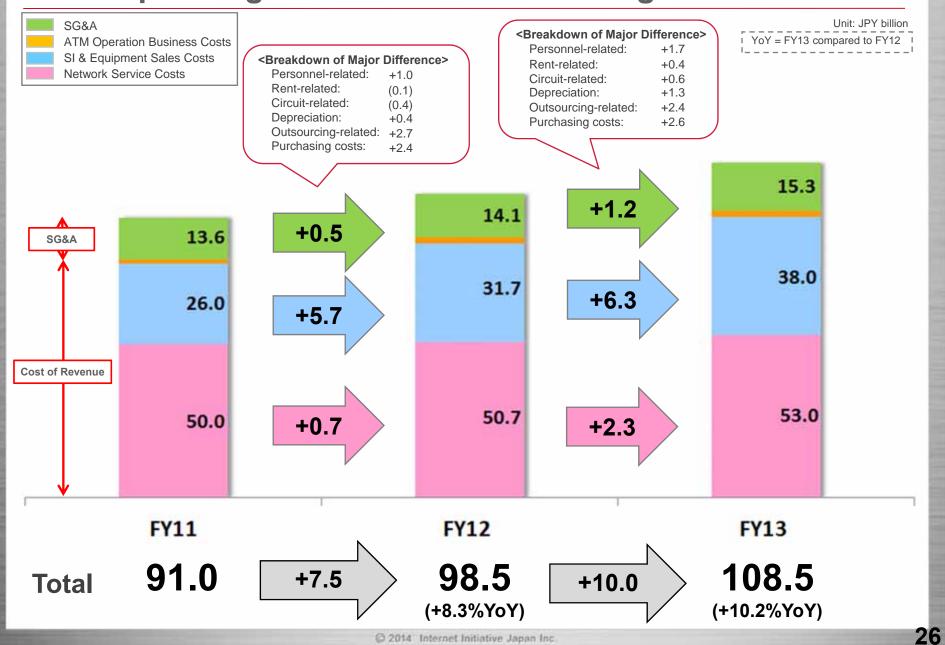

### -2. Revenues

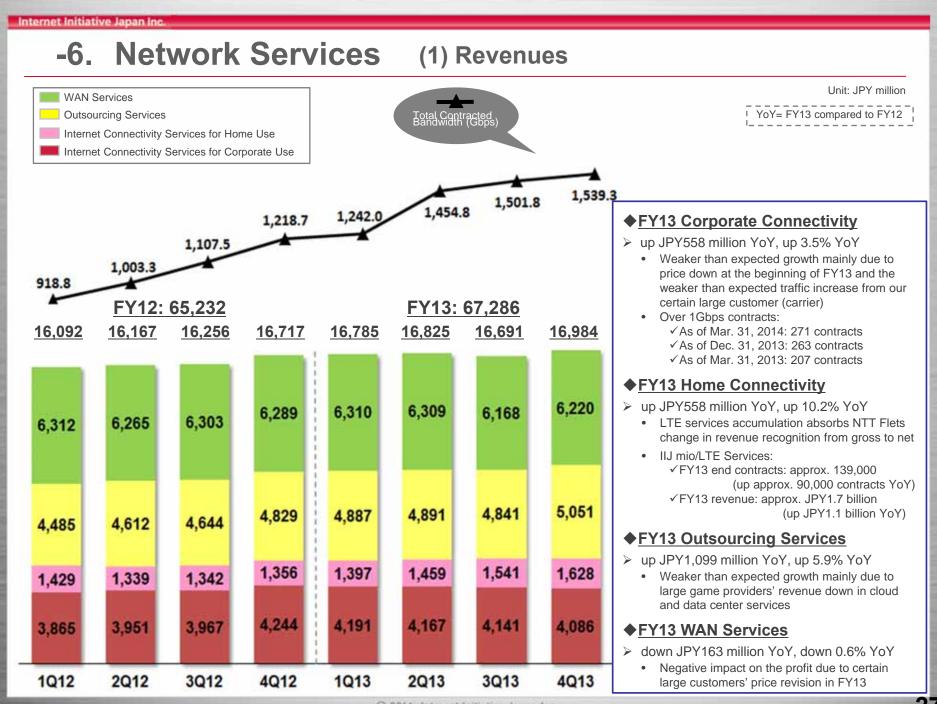

### -5. Operating Costs / SG&A YoY Change

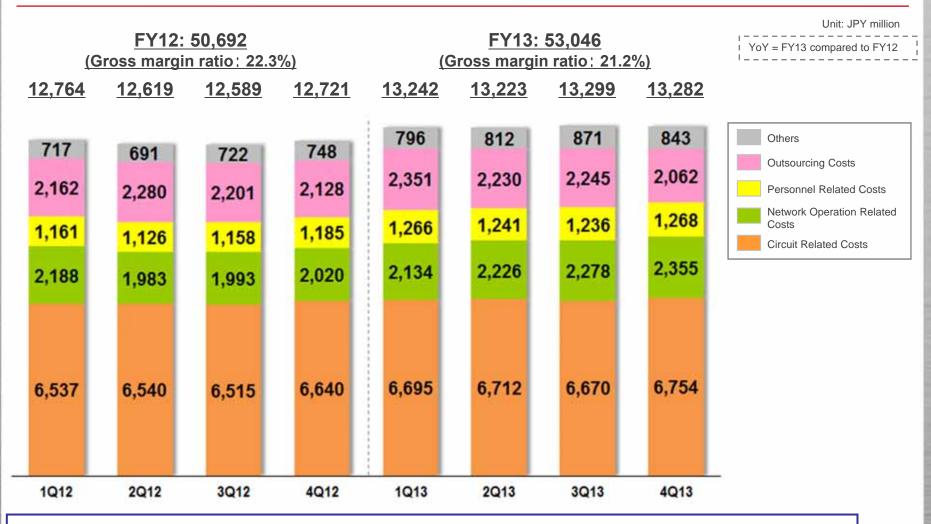

<sup>@ 2014</sup> Internet Initiative Japan Inc.

27

### -6. Network Services (2) Cost of Revenues

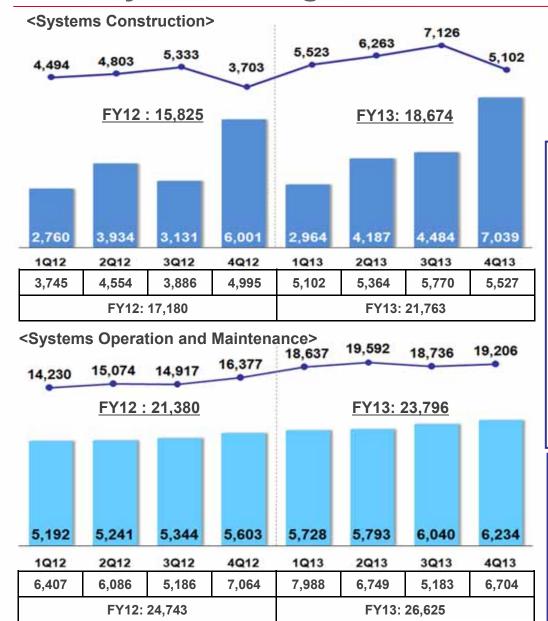

FY13 Cost of network services: up JPY2,354 million YoY, up 4.6% YoY

> Recurring costs such as personnel related, network operation related costs increased in the beginning of FY13

> Gross margin ratio decreased YoY mainly as revenues from certain large customers were weak while recurring costs increased

> 4Q13 outsourcing costs decreased due to the yearly revision of MVNO interconnectivity costs

### -7. Systems Integration (1) Revenues

### YoY = FY13 compared to FY12 Unit: JPY million Systems Construction Revenues Systems Operation and Maintenance Revenues Systems construction's order Order Backlog backlog and order received Order Received include equipment sales **Systems Construction** FY13 Revenue; up JPY2,849 million YoY, up 18.0% YoY FY13 Order received: up JPY4,582million YoY, up 26.7% YoY FY13 Order backlog: up JPY1,399 million YoY, up 37.8% YoY >The number of orders and project volume increasing along with the return in appetite of corporate IT investments ➢Projects such as: National Diet Library network replacement • B to C Email system and network replacement Cabinet Secretariats' Web system

- Financial sectors' back office system replacement
- Local government thin client system construction

Acquired a flagship transaction in 4Q13 with an unprofitable initial year contract. Recognized certain loss in 4Q13 in accordance with U.S. GAAP. Expect to have profit in the following years from additional construction projects and multiple year systems operation

### Systems Operation and Maintenance

- FY13 Revenue: up JPY2,416 million, up 11.3% YoY
- FY13 Order received: up JPY1.882 million, up 7.6% YoY
- FY13 Order backlog: up JPY2,829 million, up 17.3% YoY
- 79% of 4Q13 cloud total revenues is recognized in systems operation and maintenance revenue (remaining 21% in outsourcing)
- Weaker than expected growth mainly due to large game providers' revenue down in cloud and data center services

Internet Initiative Japan Inc. -7. Systems Integration (2) Cost of Revenues FY12: 30,425 FY13: 36,510 Unit: JPY million (Gross margin ratio: 18.2%) (Gross margin ratio: 14.0%) 6,564 7,526 6,904 9,431 7,350 8,416 9,061 11,684 Purchasing Costs 4,620 Outsourcing Costs Others 3,229 2,289 Network 2,188 Operation 1,229 Related Costs 2,007 1,224 Personnel 1,387 **Related Costs** 3,275 3.098 2,691 2,664 2,837 2.386 2,285 2,137 479 392 389 359 362 327 297 260 1.915 1,936 1.887 1.858 1.812 1.841 1,810 1,768 1,367 1,373 1,261 1.240 1,127 1,156 1,162 1,012 YoY = FY13 compared to FY12 1Q12 2012 3Q12 4Q12 1Q13 2Q13 3Q13 4Q13 QoQ = 4Q13 compared to 3Q13

◆FY13 Cost of SI: up JPY6,086 million YoY, up 20.0% YoY

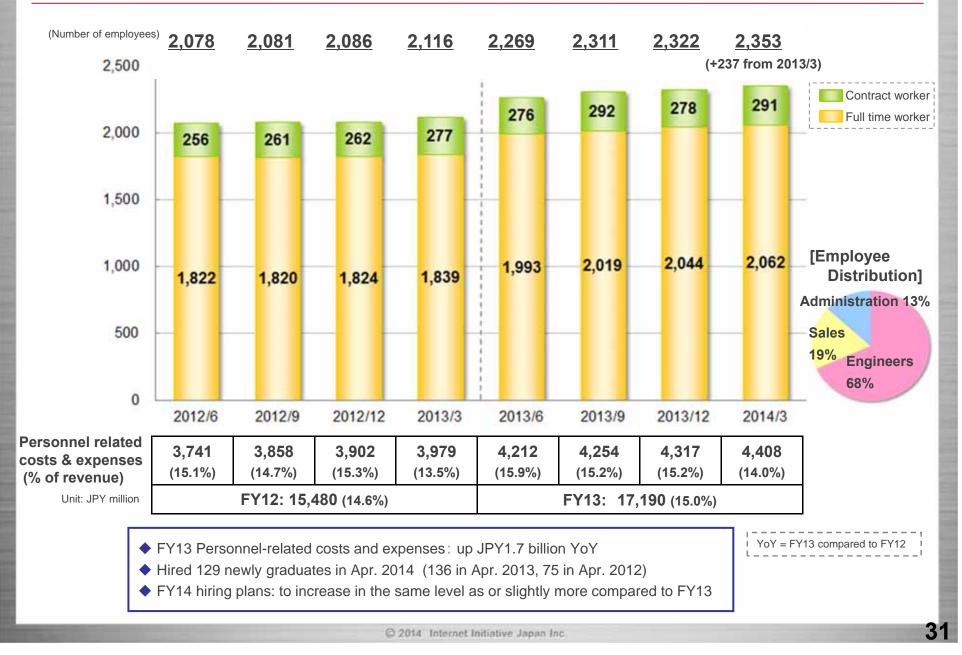

> The number of outsourcing personnel as of Mar. 31, 2014: 783 personnel (up 132 personnel YoY, down 33 personnel QoQ)

> Purchasing costs and outsourcing costs increased along with the increase in the number and volume of projects

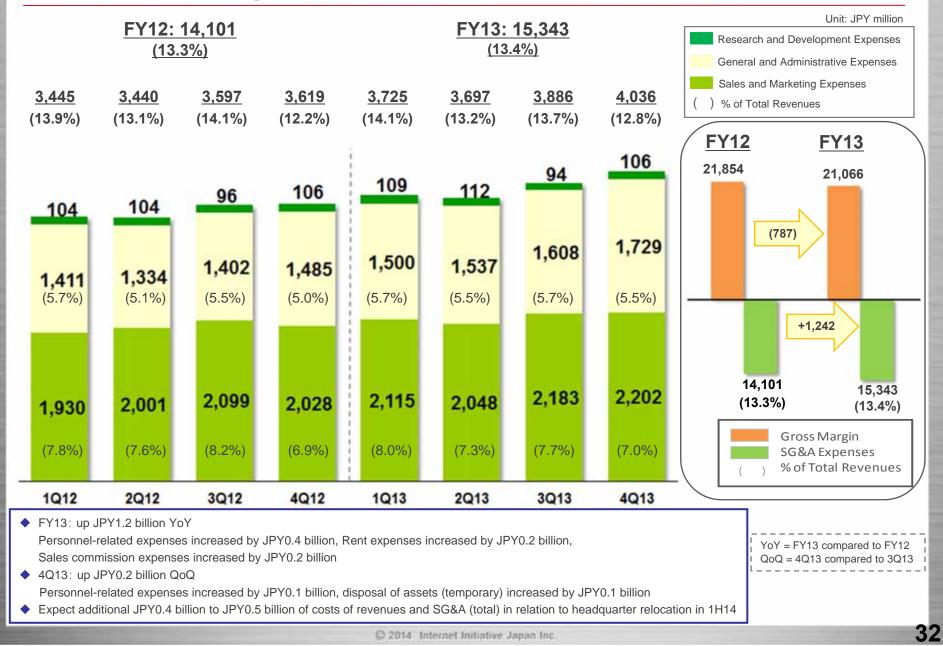

> Personnel related costs increased along with the increase in the number of employees

Large SI construction projects with lower gross margin affected SI construction profit by approx.JPY0.6 billion and there were also unprofitable construction projects in 4Q13 compared to initial expectation

### -8. Number of Employees

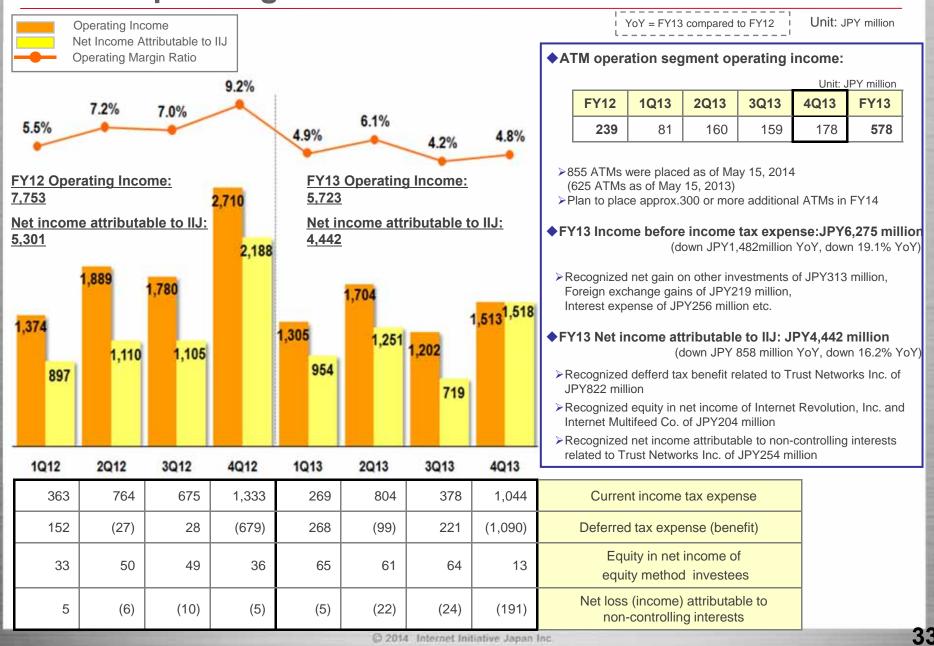

### -9. SG&A Expenses/R&D

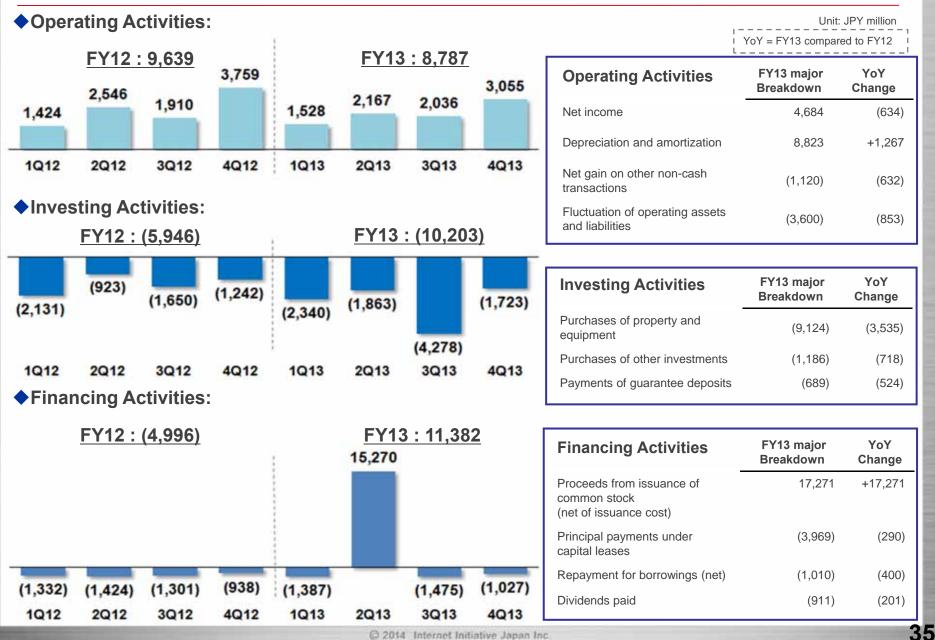

# -11. Summary of Consolidated Balance Sheets

\*Others include network upgrade, SI related, back office investments

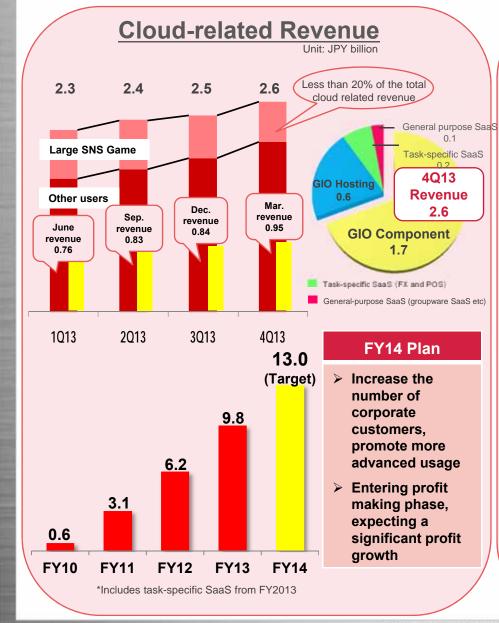

FY14 CAPEX is expected to be around JPY13.0 billion, including headquarter relocation related CAPEX

Unit: JPY million

### -1. IIJ Cloud Business

# IIJ GIO

FY13 Business Development Expansion of Customer Base and Usage > Average revenue per general corporate customers increased by over 20% YoY MRC over JPY0.5 million MRC over JPY1 million As of Mar. 2014 \*MRC: Monthly Recurring Revenu 1.160 users As of Mar 2013 As of 1,000 220 users Mar. 2012 As of Mar. 700 190 2011 340 100 40 130 users

### Main stream cloud adoption to continue

- Sompo Japan, one of the largest Japanese insurance companies, adopting IIJ GIO for their group unified platform system, jointly building cloud-based insurance-related services
- Migration of a core business operation system, large scale web systems for blue-chips, virtualization of internal back office systems, and more active usages
- Certain large game customers' revenue decrease almost hitting the bottom month by month

### Enhancement of Competitiveness

- >Expansion of service lineups continuously
- Accumulating BigData related projects triggered by "IIJ GIO BigData Lab" (launched in 2013/6), particular interests from merchandising, service, manufacturing and finance industries
- Strategic partnership with SAP Japan, and more than 500 GIO Partners (as of Mar. 31, 2014)
- >Entered BaaS market, Established a Joint Venture Appiaries

### Overseas Cloud Services

Launched cloud services in Europe and Singapore

### -2. MVNO Business

### **For Enterprises**

### Providing enterprise solution, B2C service platform

- First MVNO in Japan to use NTT Docomo's network
- Layer2 connection with NTT Docomo's 3G&LTE network, greater functionality to offer valued added services
- M2M related projects increasing especially from security and merchandising industries, smart metering, networked vehicles etc
- Increasing MVNE requirements integrating SI to construct B2C service platform for enterprise customers

### **For Consumers**

#### LTE SIM card offerings growing Revenue increased by JPY1.1 billion YoY

• Highly reliable connectivity, resulting in high customer satisfaction(1)

leveraging renowned operation expertise from corporate services

# • Continuously updating service lineups by answering customer feedback

SMS & MNP compatibility, package of 3 SIM cards, speed control coupon, voice function etc.

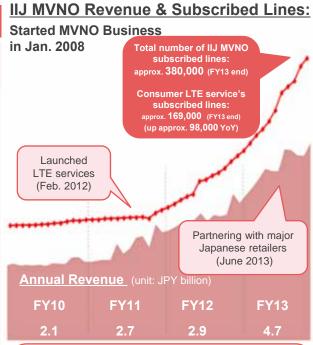

#### Greater customer reach

Partnering with major electronic retailers such as BicCamera and Aeon to increase sales channel, in addition to direct sales

### **Driving Further Growth**

### Increase MVNO infrastructure utilization by gathering traffic, Improve network services gross margin

- Accumulation of M2M related projects along with the recent trend "Internet of Things"
- Meeting MVNE demands from major manufacturing, Slers, and other existing blue-chip customers
- "Low-cost SIM · Smartphone" market rapidly growing

### Japanese MVNO market size: Ratio of MVNO contracts to

number of MNO service subscribers

≻Europe, USA, Australia 10%-14%<sup>(\*3)</sup> Japanese M2M market size:

(\*1)Ranked at top in a inexpensive SIM card user survey by MMD Research Feb. 2014 (\*2)Ministry of IAC "Publication on MVNO service usage (as of Dec. 2013)" Apr. 2014 (\*3) MRI "MVNO trend and issues" Mar. 2014

Full Year FY	14 Target	Un	it: JPY billio	
	FY14 Target (Apr. 2014 -Mar.2015)	FY13 Actual (Apr. 2013 -Mar.2014)	Yo) (FY14 Target to	
Total Revenues	123.0	114.3	+8.7	+7.6%
Operating Income	7.2	<mark>5.</mark> 7	+1.5	+25.8%
Income before Income Tax Expense	7.0	6.3	+0.7	+11.6%
Net Income attributable to IIJ	4.5	4.4	+0.1	+1.3%
Net Income attributable to IIJ per Share	JPY 97.96	JPY 100.26	JPY(2.3)	(2.3%)
Cash Dividends per Share	JPY 22.00 (Annual)	JPY 22.00 (Annual)	-	-

### 1H FY14 Target

	1H14 Target (Apr. 2014 -Sep.2014)	1H13 Actual (Apr. 2013 -Sep. 2013)	Yo (1H14 Target to		
Total Revenues	57.5	54.4	+3.1	+5.7%	
Operating Income	2.8	3.0	(0.2)	(6.9%)	
Income before Income Tax Expense	2.7	3.3	(0.6)	(19.3%)	
Net Income attributable to IIJ	1.8	2.2	(0.5)	(20.6%)	

#### Revenue :

Pursue recurring revenue increase and cloud related revenue to reach approx. JPY13.0 billion (+JPY3.2 billion YoY)

Increase breakdown	FY14 YoY Target	FY13 YoY Actual
Network Services	Slightly less than +3.0	+2.1
SI/Equipment sales	Slightly less than +4.5	+5.5
ATM Operation	+1.3 - 1.5	+0.5
TOTAL	approx. <b>+8.7</b>	+8.0

### **Gross Margin:**

Increase by improving network utilization, accumulating systems operation projects and profit contribution from cloud services

	FY14 Target	FY13 Actual (gross margin ratio)
Network Services	Improve gross margin ratio by approx. 1.0 pt.	JPY14.2 billion (21.2%)
SI/Equipment sales	Improve gross margin ratio by approx. 0.4 pt.	JPY6.1 billion (13.9%)
ATM Operation	Improve gross margin by approx. JPY0.6 billion	JPY0.7 billion

#### Sales and marketing expenses:

Expect same level of increase as FY13 (FY13 Actual: +JPY1.2 billion YoY) including headquarter relocation costs & expenses of approx. JPY0.4 billion to JPY0.5 billion in 1H14

### Non operating gains (losses):

Considering interest expenses and others

### Net Income attributable to IIJ:

Considering taxes calculated by a normal statutory rate and income of equity method investees and non-controlling interests

#### ◆1H FY14 Operating Income: down YoY

Headquarter relocation costs and expenses in June and July

### **Forward Looking Statements**

Statements made in this presentation regarding IIJ's or managements' intentions, beliefs, expectations, or predictions for the future are forward-looking statements that are based on IIJ's and managements' current expectations, assumptions, estimates and projections about its business and the industry. These forward-looking statements, such as statements regarding revenues, operating and net profitability are subject to various risks, uncertainties and other factors that could cause IIJ's actual results to differ materially from those contained in any forward-looking statement. These risks, uncertainties and other factors include but not limited to:

- a decrease of corporate spending or capital expenditure due to depression in the Japanese economy and/or corporate earnings decreased,
- an inability to achieve anticipated results and cause negative impact on profitability,
